

Routine Kitten Exams and Vaccinations

Vaccinations should begin when your kitten is about 8 weeks old. This schedule will give you an idea on how often your new kitten should visit the vet.

First Kitten Visit: 8 weeks old
Exam, Felv/Fiv test, Distemper Booster, Fecal flotation,
Revolution application

Second Kitten Visit: 12 weeks old
Exam, HCP 3 year booster, Felv booster*, Fecal flotation,
Revolution application

Third Kitten Visit: 16 weeks old
Exam, Felv 2 year booster*, Rabies 1 year booster,
Fecal flotation, Revolution application

*Required only for cats that go outside or are exposed to another cat that goes outside
